Grading System

Grades will be awarded for every course in which a student is enrolled in accordance with the following system. The letter grade system is the fundamental system of assessment of course performance in graduate programs at York University. In courses where percentages are used as a means of reporting grades on individual pieces of work, the following conversion table is to be used in converting percentage grades to letter grades, unless alternative provisions for scaling and/or conversion are announced to students in writing within the first two weeks of classes.

i The percentages indicated are not part of the official grading scheme and are meant only to be used as guidelines.
